

iP PLUS

IP video intercom

Summary

- ✦ System description: Characteristics and benefits.
- ✦ Nexa panels– EL632/IP video module.
- ✦ Steel panel with keypad: 7402/IP.
- ✦ PCM panel.
- ✦ Monitors:
 - Beoview4.
 - Beoview7.
 - Nhea IP / T-502VD/IP.
 - Porter unit.
- ✦ Add-on devices.
- ✦ Network.
- ✦ System programming.

System description

Characteristics:

- Digital transmission of audio, video and data.
- High definition full duplex audio communication.
- 25 fps video streaming. Adjustable band-width stream.
- Network infrastructure can be shared. → Cost sharing.
- No server required → No maintenance, super-stable.
- No OS running. Low level code FW → super-fast.
- Units set by IP address → unlimited number.

Benefits:

- Future proof system: the FW can be upgraded with new features once developed.
- IP standard network, easy to project and to install.
- Customized solutions for special projects.

Nexa Panels

Nexa inox

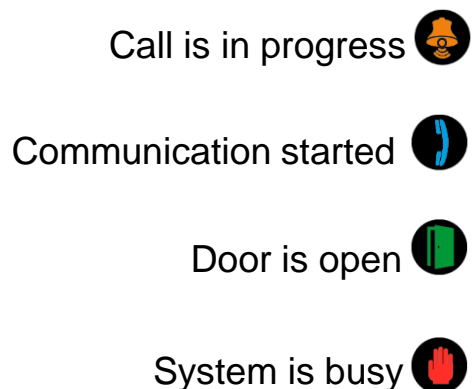

Nexa aluminium

Characteristics:

- Inox and aluminium versions available, from Nexa series.
- Up to 120 buttons.
- Single or double buttons. Permanent light on name tags.
- Visual signalization of panel status for hearing aided people.
- Wide angle camera (105°).
- Automatic camera leds activation in low light conditions.
- Communication and volume adjustments with no need to open the panel.

Video module – EL632/IP

- 2 relays for door lock.
- NO/NC relays.
- Plug to connect EL610D module, buttons extension module.
- Two call buttons included in the module.
- Wide angle and pan&tilt camera (105°).
- White leds activated only in low light conditions.
- Visual signalization of panel status through leds.

Steel panel 7402/IP

155 (W) 370 (H) mm

- Ansi 304 stainless Steel.
- Vandal proof panel and keypad.
- 2 relays for door lock. NO/NC relays.
- RFID reader can be built-in under request.
- 3,5" color TFT to display instructions and messages.
- Language selection available.
- Guard unit direct call button.
- Wide angle camera (105°).
- White leds activated only in low light conditions.
- Visual signalization of panel status through icons displayed on TFT.
- Access control through PIN code built-in.
- Call by code dialing or searching by scrolling a l

PCM Panel

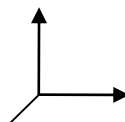

PCM-1/AL

PCM-1/BK

- PCM = private call module.
- NO/NC relays.
- Surface mount.
- Wide angle camera (105°).
- Available in anodized aluminium and black anodization.
- Designed for Lodha World tower in Mumbai for Armani hotel.

 102 (W) 140 (H) mm

Monitors: Beoview4

Beoview 4

156 (W) 102 (H) 13 (D) mm

- Made of aluminium and glass.
- 4.3 inch screen.
- Capacitive touch screen.
- Image memory.
- Intercom feature with other monitors.
- Panel tracking feature.
- Call to guard units.
- Text messages reception from admin soft.
- Door bell and call repeater output.

SOB-UNI

Monitors: Beoview7

Beoview 7

220 (W) 134 (H) 13 (D) mm

SOB-UNI

- Made of aluminium and glass.
- 7 inch capacitive touch screen.
- Image memory.
- Intercom feature with other monitors.
- Virtual keypad for call dialing (B7).
- Panel tracking feature.
- Call to guard unit.
- Text messages reception from admin soft.
- Door bell and call repeater output.
- Technical alarms inputs.

Monitors: Beoview7 Lite

Beoview 7 Lite

203 (W) 133 (H) 15 (D) mm

SOB-UNI

- Made of ASA plastic.
- 7 inch capacitive touch screen.
- Image memory.
- Intercom feature with other monitors.
- Virtual keypad for call dialing.
- Panel tracking feature.
- Call to guard unit.
- Text messages reception from admin soft.
- Door bell and call repeater output.
- Technical alarms inputs.

Nhea IP Audio unit

Nhea IP

Call answer.

Aux function.

Door open.

Call volume adjustment.

AUX

Golmar

- Privacy on conversations.
- Easy programming through software.
- RJ-45 plug to PoE switch , easy installation.
- Sound repeater output - SA.
- Door bell - HZ.
- Up to 8 units per apartment.

95 (W) 138 (H) 13 (D) mm

T-502/IP Audio handset

T-502/IP

Door open.

Aux. function.

Call volume adjustment.

- Privacy on conversations.
- Easy programming through software.
- RJ-45 plug to PoE switch , easy installation.
- Sound repeater output - SA.
- Door bell - HZ.
- Up to 8 units per apartment.

86 (W) 220 (H) 56 (D) mm

Porter unit – Beoview 7

Lobby
camera

- Made of aluminium and glass.
- 7 inch capacitive touch screen.
- Image memory and list of calls.
- Virtual keypad for call dialing.
- Panel tracking feature.
- Call to other guard units.
- Text messages reception from admin soft.
- Door bell and call repeater output.
- Connection to Porter lobby cam to stream video to monitors during communication process.

Beoview 7 porter

Add-on – Extra Camera

Extra IP cameras from the network can be targeted,
so that they can be tracked from the intercom monitors.
A gateway is required for such purpose.

Add-on – call forward

IP Gateway

It is possible to reply the calls from the intercom from a smartphone. It is required Beoview call App, available in Android and iOS.

Add-on – I/O units

C-108

It is possible to link the door open function to the I/O unit. Thus, It can either be controled a lift or a remote door lock, in order to increase the security of the building.

C-122

Available I/O units with 2 or 8 outputs (C-122 / C-108)

Network

All units are connected into the network directly through PoE switches.

The network itself can be a physical network (copper or fiber) or a Wireless network.

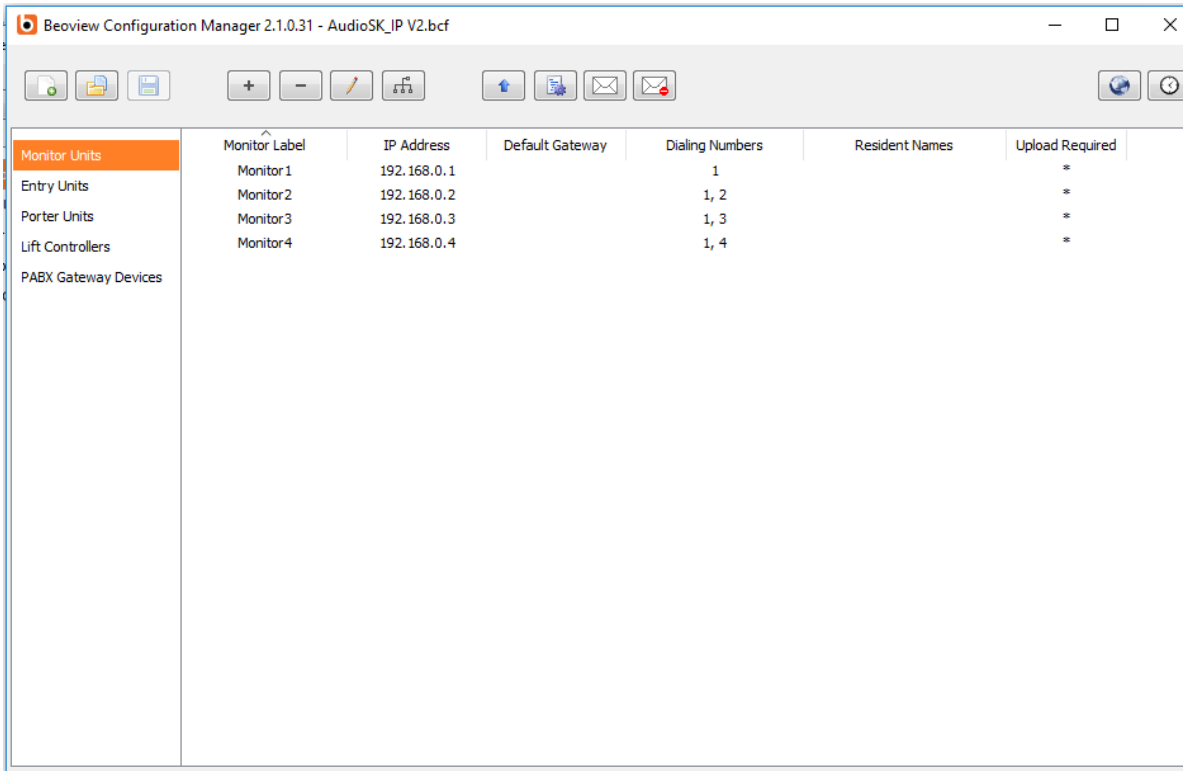

Virtual private networks

It is possible to set up a VPN, to communicate units at remote locations.

Configuration manager software

Monitor Units	Monitor Label	IP Address	Default Gateway	Dialing Numbers	Resident Names	Upload Required
Entry Units	Monitor1	192.168.0.1		1		*
Porter Units	Monitor2	192.168.0.2		1, 2		*
Lift Controllers	Monitor3	192.168.0.3		1, 3		*
PABX Gateway Devices	Monitor4	192.168.0.4		1, 4		*

- IP setting.
- Text messaging.
- FW uploading.
- VPN configuration.

Configuration manager allows to set up all units in the system.

Units are using IP 192,168,0,250 as factory default.

Each unit is set up at the beginning once.
